TREMONT SOLUTIONS

Tremont Solutions helps companies save time, increase flexibility and reduce costs related to technology staffing.

Our ability to supply targeted and high-quality technology consultants makes us the clear choice for companies looking to benefit from immediate and

Targeted. Staffing. Solutions.

Our consultants are trained and qualified in the following areas:

- Full Lifecycle Development
- Business Analysis
- System Analysis
- Project Management
- Database Administration and Development
- Mainframe Systems
- Mainframe Programming
- Website User Interface and Programming

cost effective technology staffing solutions.

Tremont Solutions' consultants provide businesses the ability to quickly and strategically acquire technology resources for any technology based project or initiative that needs to be completed on-time and on-budget. From Fortune 1000 organizations to regional businesses looking to maximize their ROI on technology expenditures, our services allow companies to quickly respond to technology challenges and opportunities.

Tremont Solutions' consultants are carefully selected to deliver immediate results - reducing the time and money that would be invested in staff development for technology-oriented projects. We deliver on-target technical solutions, backed by a decade of experience. Our experience, expertise, reliability, and customer-

driven focus ensure that working with Tremont Solutions will cost effectively deliver results.

Please contact us today at 888-309-5645 or visit us at www.tremontsolutions.com to find out how we can help your business achieve its technology goals.

Our database of consultants are trained and qualified in the following areas:

- Large Scale System Conversions
- Project Management
- Data Management
- Business Intelligence
- Technology Implementations
- System Integrations
- Financial Trading Systems
- Enterprise Infrastructure

Our commitment to Targeted Staffing Solutions gives you the following benefits:

1. Reduced Costs - Easily expand or shrink staff for projects and initiatives
2. Quickly acquire professionals to fill technology and knowledge gaps
3. Saved Time - No need to sift through unqualified candidates
4. Reduced Risk - Utilizing temp-to-hire lets you try out a candidate before hiring them

SERVICES

Utilizing our services has helped our clients:

- Successfully complete projects outside their normal technological capability or capacity
- Temporarily add or augment specialty skills necessary to the completion of a project
- Execute projects without making long-term staffing changes or financial commitments
- Realize improved resource management by contracting expert professionals and certified project managers to implement and manage projects
- Make sound financial decisions based on knowledgeable estimates of project scope and resource allocation
